

Harmony Song

It doesn't matter **who we are,**
who we are,

It doesn't matter **where we're from.**
where we're from.

What really matters **most of all,**
most of all,

Is that we all just **get along.**
get along.

*Whether your skin is dark or light,
Being different makes us unite.*

It doesn't matter **who we are,**
who we are,

It doesn't matter **where we're from.**
where we're from.

What really matters **most of all,**
most of all,

Is that we all just **get along.**
get along.

*Whether you come from far away,
We'll have harmony every day.*

It doesn't matter **who we are,**

who we are,

It doesn't matter **where we're from.**

where we're from.

What really matters **most of all,**

most of all,

Is that we all just **get along.**

.....get along!

Oh Yeah!
